OF EMERGENCY SERVICES

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

Northern California

- Another Pacific storm will bring some moderate to heavy precipitation and strong wind to Interior Northern California late tonight into Sunday night. Heavy snow is likely for the mountains of Western Plumas county, including Lassen Park, and the Northern Sierra Nevada, where a Winter Storm Warning is in effect. Up to 2 feet of snow is possible over the higher elevations. Snow levels will drop to below 5000 feet with this storm Sunday night. Lingering mountain showers expected for Monday.

Southern California

- Another storm system will swing across Southern California on Sunday night, bringing gusty winds, clouds, and scattered showers into Monday morning.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

SITUATION SUMMARY

SPILL: 15-7175, Somis, Ventura County

- The California State Warning Center (CSWC) received a Hazardous Materials Spill Report advising of an approximately 500 barrel (Bbl.) release of crude oil on a damaged transmission line in Somis, Ventura County. The location is approximately ½ way between Camarillo and Moorpark.
- Eastbound SR-118 is closed and one-way traffic control is in effect; the freeway should reopen when clean-up is complete.
- Per the Cal OES Southern Duty Officer on **12/12/15 at 1824 hours:**
 - The incident area has been divided into three Divisions for facilitation cleanup work.
 - The culvert located beneath Highway 118 where the oil traveled from the drainage south of the Highway to the northern drainage has been jetted. Crews are waiting for sign-off to complete work in this area.
 - **Division 1:**
 - **Based on analysis of the soil sampling results, crews were allowed to backfill the excavation area where the pipeline was exposed for repair. A slurry was poured over the area covering the pipeline. Continued cleanup is being conducted to remove hot spots.**
 - **Division 2:**
 - **The retaining wall along the south side of the drainage has been shored in preparation for cleanup. Power washing was creating too much water, so an alternate solution is being developed.**
 - **Division 3:**
 - **Crews are jetting the culvert under the Price Road bridge to clean up the contamination in that area.**
 - A mobile lab is deployed to the incident and staffed 24 hours a day to facilitate the sampling and analysis process.
 - **A Cal Trans Geologist arrived at the incident to assist in reconstruction of the excavation area. The Geologist met with Representatives from the Calleguas Water District and Southern California Gas Company to address their concerns regarding their respective pipelines in the area.**
 - A strategy is being developed for backfill operations.
 - The ICP has been relocated to the Quality Inn located at 984 West Ventura Boulevard, Camarillo.
 - There is no timeline currently available for completion of the cleanup.
 - Air monitoring is being conducted using a PID for a group of contaminants associated with oil product. Specific monitoring is being done for benzene. Workers in the area are wearing appropriate PPE.

Next Winter Storm Sunday

Timing

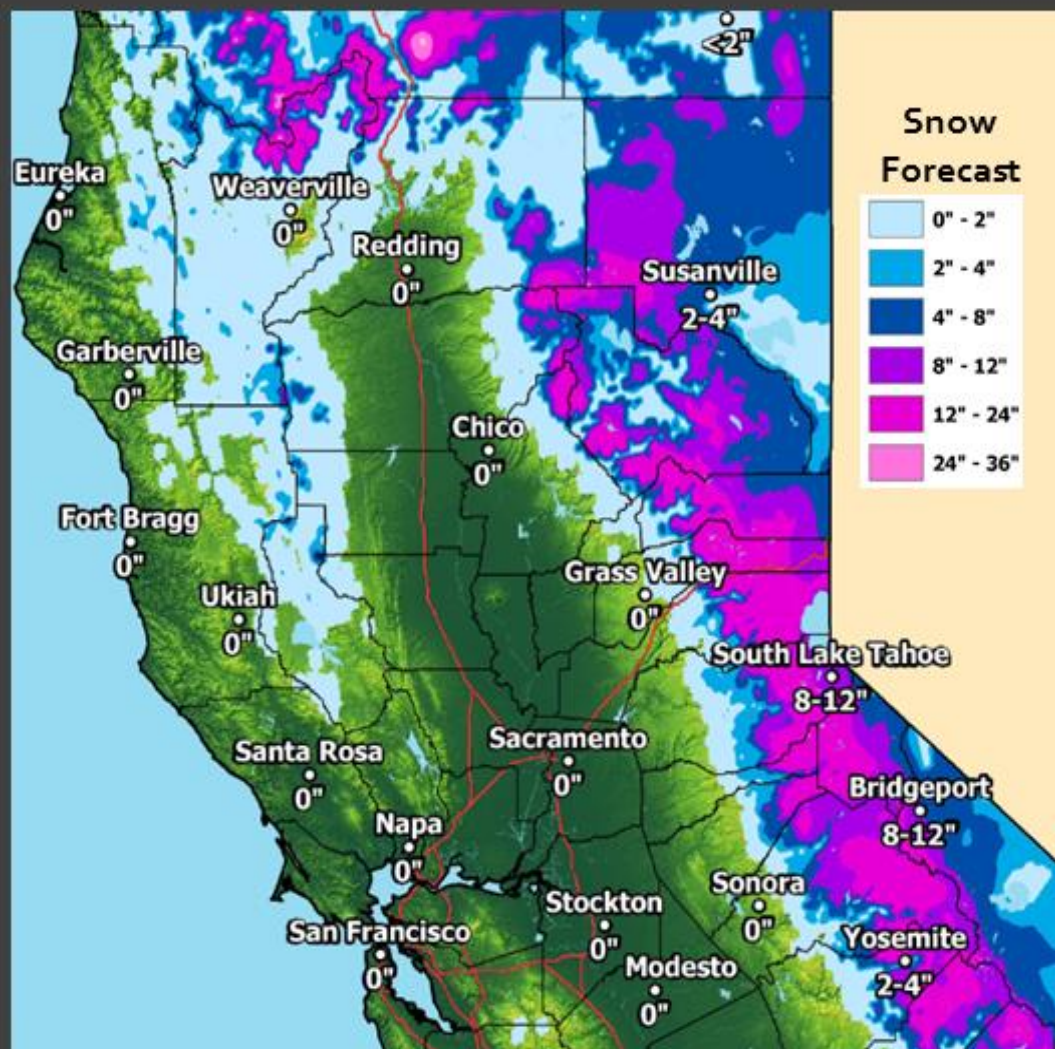

- Tonight into Sunday night

Strength

- Rain: 0.25-1.00" Valley
1 to 2" Foothills/Mountains
- Snow: 1 to 2 ft over higher peaks
12 to 18" pass level
4 to 8 inches 5000 ft
- Winds: Gusts 40 to 55 mph

Impacts

- Chain controls/travel delays
- Localized power outages
- Minimal risk of debris flow over recent burn scars

Forecast Confidence

HIGH

WEATHER

WEATHER SYNOPSIS BY REGION:

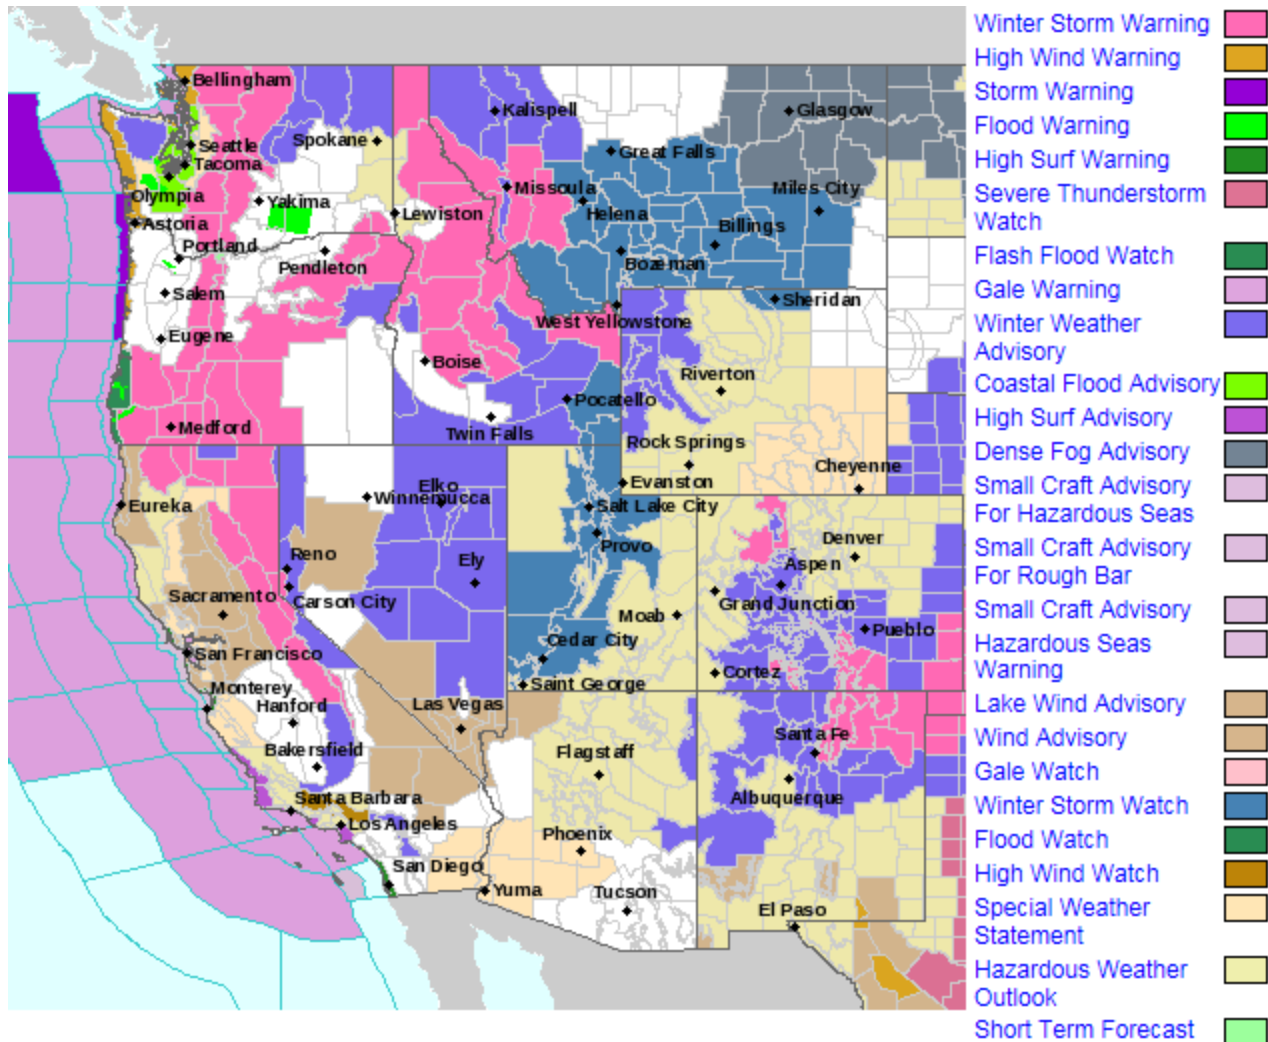

NORTHERN CALIFORNIA

Even though the snow levels are forecast to be around 3000 feet north of Redding, there is cold air trapped in the canyons and valleys. Therefore this morning through mid afternoon you could see snow levels as low as 1500 feet in some of the canyons and valleys north of Redding. A weak frontal system is now dropping southward across Northern California. This system will bring light precipitation today to the higher elevations and over valley north of Chico. Snow levels will be near 4000 feet. A much stronger frontal system will move into the area tonight and Sunday with moderate to heavy rain and strong southerly winds. Snow levels will be 3000 to 4000 feet north and 4000 to 5000 feet. Strongest winds will be Sunday morning with gusts 45 mph in the valley and 55 to 65 mph over higher elevations. The precipitation will turn to showers by Sunday evening. Monday will have showers mainly over the foothills and mountains with the showers ending by evening. Tuesday and Wednesday high pressure will be along the coast and we will see mostly sunny skies with near normal temperatures and northerly winds. Thursday a weak frontal system will spread clouds and light precipitation over the area. A stronger system will move into the area Friday.

SOUTHERN CALIFORNIA

Cool and breezy conditions will prevail today. A fast-moving cold front will bring rain to most of the area Sunday afternoon and night, along with mountain snow. Gusty winds can also be expected through Monday night. Most of next week will remain dry. Another trough of low pressure may bring a chance of rain to the area next weekend.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

CAL OES MISSIONS

New/Closed Cal OES Missions

2015-LAW-20413, 12/12/15, 1110 hours: International Emergency Rescue Coordination Center (IERCC) reported a SPOT activation with GPS coordinates: 33 20.58N, 116 23.60W, location is Anza Borrego State Park in San Diego County. LDO notified San Diego County Sheriff (SDSO). SDSO advised CALFIRE had been dispatched for a horseback rider who fell and sustained a head injury. Per CALFIRE, victim was transported by Mercy Air to a local hospital. **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
